Guidelines for Using Children's Curriculum

- ☞ Rotating 2 ½ year curriculum involving 5 Old Testament quarters and 5 New Testament quarters.
- ☞ Students will cover major Bible stories and themes during the course of the curriculum cycle.
- ☞ This curriculum can be added to or taken away from, improved, and modified. Don't feel like you cannot speak up or work to improve the way the material is arranged (not enough, too much material, not divided up properly, etc).
- ☞ Using the folders: Folders contain coloring sheets, flip chart book originals, puzzles, games, and other visual aids and helps. There is at least 1 original for each sheet in the folder. It is **EXTREMELY IMPORTANT** that the originals make their way back to the proper folder when copying is finished. We only have one copy of some sheets and to save time, money for copies, and confusion we need to make a conscious effort to keep the folders organized.
